

MD REHAN SAQUIB

Full-Stack & Mobile Application Developer

Okhla, New Delhi • +91-9162712267 • md.rehan22b@gmail.com • LinkedIn • Github

PROFESSIONAL SUMMARY

Full-Stack and Mobile Application Developer with 2+ years of experience building production-grade apps using React Native, React, Next.js, Node.js, and NestJS. Skilled in delivering performant, maintainable systems — from API design to mobile deployment — with proven success driving user adoption and improving team productivity.

EXPERIENCE

Starshield Technologies Pvt. Ltd.

Sep 2025 – Present

Mobile Application Developer

New Delhi, India

- Developed and maintained cross-platform mobile and web applications used by 150+ internal and affiliate users.
- Built **Task Manager App** enabling 50+ employees to log, assign, and track tasks in real time, improving team productivity and visibility.
- Delivered **Affiliate Portal** used by 100+ affiliates to generate shareable links, increasing product sales by **30%**.
- Integrated **Shopify webhooks** and **Socket.IO** for real-time order synchronization and commission tracking.
- Implemented secure auth (Firebase + JWT), OTA updates, CI/CD (GitHub Actions + EAS), and optimized Firestore queries for faster sync.

Sevcon India

Jun 2023 – Jun 2024

Backend Developer

New Delhi, India

- Designed and deployed REST APIs (**Node.js**, **Express**) powering CRM modules for 40+ active users, cutting average response time by 30%.
- Implemented role-based access control, reducing manual provisioning time by 60%.

PROJECTS

Starshield Task Manager — React Native CLI, Firebase

- Developed a task management app adopted by 50+ employees for real-time task sharing and status updates between teams.
- Implemented admin/superadmin hierarchy for task approvals, remarks, deadlines, and reminder notifications.
- Integrated Firebase Cloud Messaging and Firestore caching for offline support and instant sync.

Starshield Affiliate Portal — NestJS, Next.js, Prisma, PostgreSQL, Socket.IO, TailwindCSS, MUI

- Built full-stack affiliate system enabling 100+ users to generate and share product links.
- Boosted product sales by 30% through automated link tracking and live affiliate dashboards.
- Implemented real-time order tracking via Shopify webhooks and Socket.IO; improved transparency and reduced admin workload by 40%.

Full-Stack Blog Application — MERN, EditorJS

- Built structured content editor with EditorJS + RBAC-based permissions for authoring workflow.
- Deployed to Vercel/Render; optimized API latency (¡200 ms) using caching and pagination.
